

Player Pass Lamination Policy

Georgia Soccer keeps lamination equipment on site to assist in our own internal functions and most certainly we are interested in attempting to make a lamination service available to those members who need such services when they are at the state administrative offices. Even with our willingness to provide such assistance, it will always remain secondary to our main responsibilities here and we can provide no guarantee that we can provide that service when requested – only as time allows.

In addition, since we have not built this service into our budgeting process, it is necessary to charge for labor and materials for this service as follows:
